Product Name	Code / Catalog Number
Drinking and Feeding Family	See Attached List
Intended Purpose	Basic UDI-DI
Straw drinking can be a difficult task for some individuals, as it requires coordination of the lips, tongue, cheeks, and jaw. All drinking products focus on increasing suction strength, lip closure, and drinking coordination, or at least reducing work required to drink, which allows for normal straw drinking and sipping.  proSpoons and other feeding tools provide just the right amount of food in the spoon bowl and helps people eat easily. Bumps also provide sensory input.	++G099DrinkingFeedingSY
